Powered Industrial Trucks, Material Handling Vehicles and Powered Mobile Equipment – Form 7: Powered Industrial Truck Training Certification

OR-OSHA's Forklift regulations require that employees be trained and certified drivers with a valid license before they are allowed to operate forklifts

This is to certify that _____ has satisfactorily completed a basic powered industrial truck operator training program that included the following topics:

Safety Equipment:

1. **Visual Checks**
2. **Load Handling System**
3. **Hydraulic System**
4. **Fluid Levels**
5. **Fluid Leaks**
6. **Operator Inspections**
7. **Safe Refueling Requirements**
8. **Knowledge of the Powered Industrial Truck**
9. **Handling Loads**
10. **Safe Operation**
11. **Parking**
12. **Staying Alert**
13. **What to do in the event of an emergency**
14. **Safety Rules**

I have had my responsibilities relating to inspection and safe operation of powered industrial trucks explained to me and understand that I can be held accountable for any deliberate acts or negligence that pertains to my duties in operating a lift truck.
