Discussion:

Common Course Numbering Update

- Courses that must align with CCN system for the 2023-24 catalog:
    - Communication 100Z, 111Z, 218Z
    - Math 105Z, 111Z, 112Z
    - Statistics 243Z
    - Writing 121Z, 122Z, 227Z
    - PCC Honors courses: WR 121, WR 122, COMM 111
        - These courses have the same prerequisites as non-Honors courses with one additional Honors outcome.
    - There are 13 courses for PCC because we want to ensure that our Honors courses will be accepted by other institutions for transfer purposes.
- The college has to adopt the state titles, course descriptions, outcomes, and numbering for these courses.
    - PCC's COMM 214 will be changed to COMM 218.
    - PCC's MTH 243 will be changed to STAT 243.
- Local institutions are permitted to add up to 25% of additional description and outcomes.
- SACs have until 4/27 to let the Curriculum Office know if they want to add any additional information.
- At the May curriculum meeting, CCOGs for those 13 courses will come through as agenda items with state requirements only, or with state requirements plus additional description and outcomes.
- By this time next year, there should be a separate CCOG form with space for the additional information.
    - A potential problem will be how we can ensure that state requirements aren't accidentally changed during the approval process.
