

around the world with intel

meeting global demand for information technology

Key Note Speaker

Paul Thomas

Chief Economist for Intel

with a welcome by

Mike Francis

of The Oregonian

Wednesday, November 12, 2008

doors open for coffee: 7:15 AM

program: 7:45 – 9:00 AM

Portland Community College
Rock Creek Campus
Building 9 Event Center

The address will cover the economic conditions behind the growing worldwide demand and supply of information technology. It will discuss Intel's part in the design and production of this technology and the essential role of free trade in meeting this demand and increasing productivity worldwide.
