

CONSTRUCTION EDUCATOR EXTERNSHIP

Washington County Sites
June 24-28, 2024

You already know that construction careers offer family wages with benefits and don't require a college degree. Want to enrich your classroom instruction and discover ways to build support for your program? Join us for an immersive experience that will showcase the fascinating construction industry and provide participants with a working knowledge of construction career pathways and the opportunity to forge authentic relationships with industry partners.

Topics include:

- Apprenticeship and Community College Pathways
- General Contracting
- Back Office Careers
- Vertical and Horizontal Construction Projects
- Civil & Heavy Highway
- Specialty Contracting

Participant Compensation Includes:

Priority given to CTE teachers in Construction, Manufacturing and Agriculture
Participants must complete all 5 days to receive stipend
Stipend rate: \$400/day
