

Program Review – Annual Program/Discipline Update
Administrative Response and Follow Up
Winter 2021-2022

Program/Discipline: Health Studies

SAC Chair(s): Michael Meagher

SAC Administrative Liaison (Director or Program Dean): Dana Fuller

Other Dean(s) or Director(s): Joy Jerome Turtola

Department Chair(s): Rachelle Katter

Date: October 3, 2022

This section is for Administration to provide feedback.

To be prepared by Program Dean(s) and reviewed by Pathway Dean and Associate Vice Presidents(s).

1. Strengths and successes of the program as evidenced by the data, analysis and reflection:
 - Thank you for your tremendous flexibility and responsiveness to PCC moving remote in 2020. I appreciate the quick change, immediate move to remote teaching and exceptional support of our students. HE is a well organized group with strong natural leadership within and I credit your spirit of team, planfulness and care for one another. Thank you all!
 - The HE SAC tracks a tremendous amount of information in detail- nice work! I can see that you have stepped in where the college is unable to when it comes to providing data and analysis. Thank you for your interest and commitment to understanding enrollments and students needs and for considering the data so seriously.
 - We knew that HE has had great success with Remote and the college understands as well and plans to continue to offer remote, OL/WEB, face to face and hybrid modalities. Thank you for your advocacy for remote instruction and the variety of modalities.
 - I admire the thoughtful revision schedule you have developed for all HE courses. I also appreciate the shared shells and ways in which you complete the work so that all instructors benefit.
 - Compliments to you all for working with the Office of Disability last year to address the concerns they were hearing from some students regarding students with disabilities conceptions of HE requirements. I did not participate in those meetings but saw how quickly and authentically you connected with their office and created a plan. Thank you for your responsiveness and helping all of our students take HE!

- It sounds like you could use some time with our Pathway Advisors to talk through HE. Please reach out to Phil Christain at Pchrista@pcc.edu for time with the PSESS Pathway advisors.
2. Areas of challenge or concern, if any:
- I understand the need to adjust the number of OL sections we offer and am happy to share that OL no longer requires that we list the number of sections that we intend to offer but that we simply offer a section when we commit to do so. I believe this offers us much more flexibility.
 - I know you need paid training for PT faculty and I will continue to advocate for paid professional development.
 - The average PCC student success rate is 86%, and overall HE has strong success rates.
3. Reflection on goals and resources:
- I admire the HE SAC goal of adopting inclusive language practices in teaching and curriculum and want to share that I have heard of other SACs and faculty doing this work too and requesting support. I know of a group offering ideas and support through Israel Pastrana, let me know if you would like me to connect you to them. Thank you for your work in this area!
4. Recommended next steps:

Proceed as planned on program review schedule

Follow up conversation needed with SAC, Dept Chair(s) and Dean

5. Additional comments/questions:

I appreciate the efforts to schedule some f2f classes in HE and hope we see more classes offered on campus and that full time faculty will also participate in teaching the campus sections. You have done a great job pointing out that higher success rates are in the f2f classes and in F22 57 HE CRNs were scheduled 13 had face to face components. Thank you! Dana
