

Dear Students,

I want to give all of you a very warm welcome. I wish all of you great successes and blessings in this class and in all aspects of your lives. I enjoy teaching at PCC immensely and let me know if I can help you in anyway. Do not hesitate to contact me. Please review the syllabus and contact me with any questions.

Thank you,
Mr. Diss

COURSE	MTH 20: Basic Math – (4 credits)
TERM	Fall 2019: September 23, 2019 to December 11, 2019
SECTION	43717
TIME/DAYS	4:30 to 6:50 PM Mon/Wed
ROOM	Hillsboro Center H110
INSTRUCTOR	William C. Diss Math Office: Rock Creek Building 2: Room 210 971-722-3183 (Instructor Phone) 971-722-7696 (Math Office) 971-722-6800 (Hillsboro Center) wdiss@pcc.edu
ADDITIONAL HELP	I will be available for extra help after class. I can also schedule other times.
REQUIRED MATERIALS	Textbook: BASIC COLLEGE MATH W/ALEX Author MILLER Edition 3RD 15 ISBN 9781260727456 No Calculator Required: Only a very, very small percentage of our work will require electronics, thus no calculator is required. Notebook: A spiral or binder notebook is required. Writing Instruments: You need to have three or four pens or pencils in good condition. All work should be done in black pencil or some dark color of ink (no shades of red). All corrections should be done in some other color. Please do not use a black pen to correct work done in black pencil and vice versa. Please bring extra pens and pencils. Ruler: You need to have a ruler or a straight edge to draw all lines. Loose Leaf Paper: All assignments must be turned in on loose-leaf paper; paper cannot be torn out of a spiral notebook. Graph Paper: All two-dimensional graphs must be done on paper with either four or five squares per inch.
COURSE DESCRIPTION & PREREQUISITES	Covers fractions, decimals, percent's, integers, and measurements to write, manipulate, interpret, and solve application and formula problems. Explores some measures of central tendency. The PCC math department recommends that students take MTH courses in consecutive terms. Prerequisites: (ABE 0782 or placement into MTH 20) and (placement into RD 80 or ESOL 250). Audit available.
COURSE OUTCOMES	Upon successful completion students should be able to: <ul style="list-style-type: none"> Choose and perform accurate arithmetic computations in a variety of situations with and without a calculator.

	<ul style="list-style-type: none"> • Creatively and confidently apply mathematical problem solving strategies. • Meet the prerequisite for future course work. <p>View the course content guide at: http://www.pcc.edu/ccog/default.cfm?fa=ccog&subject=MTH&course=20</p>
ATTENDANCE POLICY	<p>You are expected to attend all classes in which you are enrolled. If you do not attend or stop attending classes and fail to personally drop within the refund period, you will be responsible for all tuition and fees. Unless you have made prior arrangements with your instructor, you may be dropped from the class roster if you do not attend the first class session. However, faculty members are not required to drop students for nonattendance. If you have excessive absences and fail to drop or withdraw from class by the deadlines, a grade of F may be assigned. For drop deadlines and further information on dropping a class, see dropping classes, https://www.pcc.edu/enroll/registration/dropping.html. You can only attend classes that you are officially registered into. You can't sit-in on a class without the proper registration for the course. https://www.pcc.edu/enroll/registration/attendance.html</p>
ACADEMIC PROFESSIONALISM	<p>The location of this class is at Portland Community College and it is important that an atmosphere of a professional college environment is maintained. Complaints, comments or questions that are not related to mathematical content should be made in private to the instructor.</p>
IMPORTANCE OF MATHEMATICAL NOTATION	<p>It is the philosophy of the Portland Community College Mathematics Subject Area Committee (PCC Math SAC) that it is important for students to learn how to communicate mathematics using standardized notation, as this is part of the educational process. We believe that when students are able to effectively use mathematical notation to compose meaningful mathematical statements, it is reflective of a deeper understanding of the mathematical concepts being described. Also, an understanding of math concepts and language includes the comprehension of math symbols and implementing their standard usage and format in communicating deductive mathematical reasoning. Finally, the importance of reading, writing and understanding the language of mathematics helps students communicate in the STEM fields. Consequently, the PCC Math SAC has adopted "documentation standards" for many of our courses. These standards are intended to help students learn how to communicate mathematics effectively, which we believe will empower students to be successful in current and future coursework.</p>
STEPS AND FORMATTING OF WORK	<p>The process of working a math problem is very critical. Math problems are written in a similar way to writing a college paper. Every line of mathematics is important just as every paragraph, sentence and word is important in a college paper. College papers have certain formatting requirements for indentation and spacing between lines of text. Your problems will also be worked with specific formatting requirements. Please work problems as shown in class and please leave plenty of space between problems. The entire width of the paper will be used for some problems so please do not use columns on multiple problems.</p> <p>The <i>Course Content and Outcome Guide</i>, for the our class has the following important information on steps:</p> <p><i>The Mathematics SAC recognizes that how one presents the steps to a problem that lead to the desired goal is as important as the answer itself. We want all of our students to recognize this fact; thus an instructor will need to emphasize the importance of how to write mathematics properly. All students in a Math 20 course</i></p>

	<p><i>should consistently write proper mathematical steps; students must adhere to correct use of syntax. A portion of the grade for any problem", when applicable, should be based on mathematical syntax..</i></p> <p>On the top left of your paper please put the following heading:</p> <p><i>First and Last Name</i> Instructor: Mr. Diss Math 20: Basic Math <due date> <assignment description> Ex: HW #1</p>		
HOMEWORK	<p>Homework is extremely important. An assignment will be given each week and is due the next week. Please work all problems and show all work as shown in class. You will be graded on steps, neatness, proper format, and correct mathematical statements. Please correct all odd problems and supplement problems, before class, by putting an X or C by each problem; if the answer is wrong, please write in the correct answer.</p> <p>In class we will review a few of the problems. Please correct your problem by inserting the missing steps. You will be graded on having all of the <u>correct steps and corrections</u> made in class so please correct problems that are worked on the board.</p> <p>You will be spending at least four to five hours a week on homework. If you do not turn in a homework on time and decide to do it later, then you will have at least 10 hours of work the following week. Please do your homework and turn it in each week. Late homework will only be counted for one more week and will not be graded for full credit.</p>		
Quizzes and Tests	<p>Quizzes will be announced and unannounced. All tests will be announced. Quizzes and tests will be graded on steps and answers. Quizzes and tests cannot be made up. Tests are critical and count for a great portion of your grade so please take all tests.</p>		
GRADING POLICY	<p>You will be graded on all you do including steps, orderly work and clear answers. Homework and quizzes are approximately 25% of the grade and tests are approximately 75% of the grade. The final is comprehensive and it can be used to replace your lowest test grade.</p>		
Grading Criteria	Items to be graded	% of Grade	
	Homework and Quizzes.	~ 25%	
	Three tests and one final.	~ 75%	
Grading Scale	Final Percentage on all homework, quizzes and tests.	Letter Grade	
	89.6 % and above	A	
	79.6% - 89.59%	B	
	69.6% - 79.59%	C	

	59.6% - 69.59%	D
	Below 59.9%	F

GENERAL PCC INFORMATION AND RESOURCES Portland Community College www.pcc.edu Rock Creek Campus, 17705 NW Springville Rd., Portland, OR 97229 PCC Hillsboro Center Address: 775 SE Baseline St, Hillsboro, OR 97123 Phone: (971) 722-6800	
ADA ACCOMODATION	Instructional ADA statement - Students who experience disability-related barriers should contact Disability Services [www.pcc.edu/disability]. If students elect to use approved academic adjustments, they must provide in advance formal notification from Disability Services to the instructor.
EMAIL NOTICE	Due to Federal laws and concerns about privacy, all email communication between instructor and student shall be done via PCC assigned email address . Access email via MyPCC—see instructor during office hours if unfamiliar with using MyPCC.
EQUITY & INCLUSION NONDISCRIMINATION NONHARRASMENT (TITLE IX)	Portland Community College is committed to creating and fostering a learning and working environment based on open communication and mutual respect. This is an integral part of the College's academic mission to enrich our students' educational experiences and prepare them to live in and contribute to a global society. If you believe you have encountered sexual harassment, sexual misconduct, sexual assault, or discrimination based on race, color, religion, age, national origin, veteran status, sex, sexual orientation, gender identity, or disability please contact the Office of Equity and Inclusion at (971) 722-5840 or equity.inclusion@pcc.edu . www.pcc.edu/about/equity-inclusion/eo-statement.html www.pcc.edu/about/equity-inclusion/nonharassment/
FLEXIBILITY STATEMENT	The instructor reserves the right to modify course content and/or substitute assignments and learning activities in response to institutional, weather, or class situations.
GRADING AND REGISTRATION POLICIES AND DEADLINES	Adding and Dropping: www.pcc.edu/enroll/registration/dropping.html Grading Options: www.pcc.edu/registration/grading-policy/ Grading Guidelines: www.pcc.edu/resources/student-records/grading/
STUDENT RIGHTS AND RESPONSIBILITIES HANDBOOK	Students are required to comply with the Student Rights and Responsibilities Handbook. Included are policies on Students Rights, Student Conduct, Grade Appeal, Academic Integrity, Consensual Relationship Statement, and Children on PCC properties. www.pcc.edu/about/policy/student-rights/ www.pcc.edu/about/policy/student-rights/documents/student-conduct.pdf www.pcc.edu/about/policy/student-rights/documents/grade-appeal.pdf www.pcc.edu/resources/academic/standards-practices/academic-integrity.html www.pcc.edu/about/policy/student-rights/documents/relationships.pdf www.pcc.edu/about/policy/student-rights/documents/children.pdf
COLLEGE POLICIES AND DEADLINES REGARDING	The college has very tight deadlines for auditing, dropping, or withdrawing from a course. For example, during most terms the paperwork to audit a course must be signed and submitted by the end of the first week of the term. Similarly, to receive a refund for a class a drop must be completed the first week of the term. These time frames are even

GRADES AND REGISTRATION STATUS	<p>shorter for some summer term courses. <u>Watch your email.</u></p> <p>In all cases, it is 100% the student's responsibility to process the change in registration status by the due date and time. Term specific information for these deadlines is available:</p> <p>Adding and Dropping: http://www.pcc.edu/registration/dropping.html</p> <p>Grading Options: http://www.pcc.edu/registration/grading-policy/</p> <p>Grading Guidelines: http://www.pcc.edu/resources/academic/standards-practices/documents/G301GradingMarch2011.pdf</p>
POLICY FOR CELL PHONES AND OTHER ELECTRONIC DEVICES	<ul style="list-style-type: none"> • Cell phones must be either turned off or in silent mode during class time • In case of necessary/emergency call or text, please leave the classroom before responding • Cell phones must be turned off and put away during exams • Laptops, iPads, or other electronic devices are permitted only for work pertaining to class (taking notes, graphing, etc.) <p>During exams, all electronic devices should be off.</p>
COURSE EVALUATIONS	<p>Near the end of the term, students are encouraged to complete evaluations by answering on-line questions about the class and the instructor. You will receive a PCC email notification when the evaluations become available. You are strongly encouraged to complete the evaluations to provide me feedback on the course and my teaching.</p>
SCHOOL CLOSURES	<p>In the unlikely event the college is closed, I will try and send email to your PCC account of changes and new assignments.</p>
