

WHAT DO KAYACTIVISTS, LEONARDO DICAPRIO AND BAN KI-MOON HAVE IN COMMON???

Not sure what to think about global warming?

Need to fulfill a science requirement, but nothing sounds interesting?

JOIN US THIS WINTER!
G 184 – GLOBAL CLIMATE CHANGE

Tuesday/Thursday 11 am – 1:50 pm
Register starting Nov. 17th

You will learn the scientific basis for understanding Earth's climate through hands-on activities and practical lab explorations. We will look at tree cores cut from Sylvania campus trees, re-create ocean acidification in a tank, and even spend a few days as the United Nations hammering out a global climate agreement. (4 credits)

Prereqs: WR 115, RD 115, MTH 020, or equivalent placement tests
