

**Portland Community College
Management and Supervisory Development A.A.S.
Transfer Agreement with Portland State University**

Graduates from PCC's Management and Supervisory Development Associate of Applied Science (A.A.S.) degree program may transfer to PSU with the following understandings:

1. Student's will first contact an academic adviser at Portland Community College and then PSU's Information and Support Center, (503) 725-9546, or PSU Degree Completion Program, (503) 725-2148 to schedule an appointment with an academic adviser.
2. They will have been advised, and have their transcripts evaluated for a transfer into a Bachelor of Science (BS) or Bachelor of Arts (BA) degree program in Social Sciences, Liberal Studies or Arts and Letters (though they may choose from the full range of undergraduate majors for which they meet pre-requisites). Students who choose to pursue the B.S. are required to complete 12 credits of science course work, of which 8 credits must be lab science, and 4 credits of college-level mathematics. Students who choose to pursue the B.A. are required to demonstrate proficiency in a foreign language through the second year of college level, and complete an additional 4 credits in science, and 4 credits in fine arts. It is almost always to a student's advantage to transfer to PSU having completed these requirements.
3. Provided that there are at least 90 transferable credits, they will be admitted to PSU with junior status.
4. The professional technical courses and practicum taken at PCC will appear as electives on transfer evaluations unless they have been articulated into departments.
5. Changes in these understandings will be communicated by either party in writing no later than June 30 of any academic year.
6. This agreement may be terminated at any time by mutual agreement of the parties, or by either party upon 30 days written notice to the other party.
