

**Portland State University/Portland Community College
Alcohol and Drug Program Transfer Agreement**

Graduates from Portland Community College's Alcohol and Drug Counseling AAS degree program may transfer to Portland State University with the following understandings:

1. Graduates will contact Robert Mercer, Senior Advisor, College of Liberal Arts and Sciences (CLAS), 725-5059. He and his staff will serve as the first-contact advisor for transfer students in this program, will provide an over-view of the requirements for a degree, and will suggest a departmental advisor in the major. All majors are open to these students. Portland Community College advisors will help to assure that the students have taken appropriate academic courses in preparation for majors at Portland State. For example, Psychology and Sociology majors require that statistics be taken, and unless taken early may delay finishing the degree. Academic advisors at Portland Community College may call Mr. Mercer with any specific questions.
2. The general education requirement at Portland State University has changed. Beginning in Fall, 1996, transfer students will be required to take a transition course for entrance into the junior level general education program. This will be a four or five hour course. The remainder of the general education program will be 12 credits at the junior level and a 6-credit, senior-level, capstone course. Depending on the date that the transfer student began his or her studies, the former General Education program may be available. The CLAS Advising Office will assist students in choosing.
3. All professional/technical classes and practica graded C or above taken at Portland Community College will appear as general elective credit on transfer evaluations.
- *4. Provided that there are at least 90 hours in transfer credits, students will have junior status.
5. Changes in these understandings will be communicated by either party in writing no later than June 30 of any academic year.

Dr. Roderic C. Diman
Vice Provost for Academic Affairs
Portland State University
