HOR 291	Landscape Design Process	Questions about the list of recommended courses, they seem similar and redundant compared to the prerequisites. Instructor explained that the recommended course list aligns with the degree revision. And they want students to take 9 credit of plant courses before they enroll in the design class. There are 60 iterations that students could take to complete the 9 credit requirement if placed in Banner. The courses are offered only one time per year, so depending upon the student's progression through the program, course available will be varied.		x

Discussion
Planning for next year meetings
Move to new location?
Linda is accepting emails from individuals interested in being a chair next year. EAC chair appoints the next chair.

Continuing conversation about should we operationalize the inclusion of an outcome in Coop ED, Practicum, Clinical, Independent Study courses? "Meet mutually agreed-upon goals and learning objectives with the instructor and employer or supervisor in a _____ setting. Need to close the loop to this conversation. Somewhere in the CCOG there needs to be a statement see February meeting minutes.

To Do: Audit of 280 courses and other coop like courses clinical, independent study, applied music MUP, to see the similarities and differences in outcomes is there is a model that looks better?
