

# General Education Initial Discussion

---

## Introductions

Something you did over the summer

## Background to the discussion on General Education

Why are we having this discussion now?

## Reflection on how we assess General Education Designation

Questions?

## Salient questions to guide discussion

What should be honored in our current Gen Ed system?

What should General Education look like?

What should General Education accomplish?

Is our current system of Gen Ed doing what we hope it should for students?

Is our current General Education System serving the attainment of core-outcomes as it should?

How does our Gen Ed philosophy statement and criteria fit into this larger discussion?

What should our role (Curriculum Committee) be in discussions about General Education?

What responsibilities do we have in regards to General Education?
